

IRSHAD ALAM

Software Engineer

✉ alam.irshad2511@gmail.com • ☎ +91 9508962364 • 📍 New Delhi, India • [in LinkedIn](#) • [🔗 Portfolio](#) • [GH GitHub](#) • [LC LeetCode](#)

SUMMARY

Full-stack Software Engineer with hands-on expertise across React, Node.js, and Next.js, building scalable applications from concept to deployment. Delivered diverse projects spanning a peer-to-peer campus marketplace, an AI-driven job application agent, and a client-facing corporate platform — each solving a distinct real-world problem. Strong database fundamentals in SQL/MySQL, backed by daily algorithmic practice across all difficulty tiers on LeetCode and consistent open-source contributions on GitHub.

EXPERIENCE

Dummy Developers

Jun 2025 – Feb 2026

Backend Development Intern

- Designed and developed 10+ RESTful APIs using Java Spring Boot, integrating with relational databases to support 20+ data endpoints with optimized query performance
- Implemented JWT-based authentication and validation middleware, reducing API error rates by 40% and strengthening application security across all endpoints
- Collaborated with 3 cross-functional frontend developers to design API contracts, enabling seamless data exchange for 5 major features
- Contributed to 4 real-world projects, delivering backend services that supported 500+ active users with 99% uptime

PROJECTS

[College Dress Marketplace Website](#)

- Niche Marketplace: A dedicated e-commerce platform for college students to buy and sell essential academic wear (lab coats, uniforms, blazers).
- Hyper-Local Filtering: Automatically isolates the marketplace based on the user's registered college, ensuring students only see products from their own campus.
- Modern Tech Stack: A high-performance, full-stack MERN application featuring a premium UI (React/Tailwind) and real-time messaging (Socket.io).

[MetaMax Construction Website – Corporate Platform](#)

- Built a professional corporate website showcasing construction company expertise across multiple sectors.
- Implemented dynamic admin panel for project management, featured project galleries, service catalogs, and client testimonials.
- Tech Stack: React, Node.js, MongoDB, Tailwind CSS.

[AI-Powered LinkedIn Auto-Applier](#)

- The Goal: Automatically applies to LinkedIn "Easy Apply" jobs by using AI to read and answer form questions based on your resume.
- The Features: Tailors PDF resumes on the fly, auto-selects dropdown options, inputs pre-configured CTC values, and exports your application history to Excel.
- Tech Stack: Python, Selenium, OpenAI API, Excel Automation.

[Irshad Trader Website – Forex Trade Portfolio Platform](#)

- Highlighted full-stack development, specifically optimized image storage with Cloudinary — cutting image load times by ~35% — and real-time updates enhancing financial analysis.

[College Bot – AI-Powered Virtual Assistant](#)

- Emphasized natural language processing and context-aware interactions, resolving 200+ student and faculty queries with ~90% response accuracy.

EDUCATION

Geetanjali Institute of Technical Studies, Udaipur

2023 – 2027

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Grade: CGPA : 8.5

SKILLS

Languages & Databases: JavaScript, Java, C++, Python, SQL, HTML, CSS, MongoDB, Relational Databases, JSONBin

Frameworks & Libraries: React, Next.js, Node.js, Express.js, Java Spring Boot, Tailwind CSS

Tools & Technologies: Git, GitHub, REST APIs, RESTful Web Services, AI Automation, Cloudinary, Netlify, Agile Methodology, Version Control

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering

ACHIEVEMENTS

- 300+ coding problems solved on LeetCode
- 50-Day Continuous Coding Streak
- GDSC Code Battle Winner
